**Subject:** Holy Trinity Cemetery-Phone Conference today  
[HTC Follow up Survey 12-30-15.pdf](#)

Good Morning Carmen:

I just got off the phone with Pete. Lyndsey and I would like to have a phone conference with you both today if possible. We need to obtain the site specific info we requested last week in order to finish calculations for a proposal this week. Lyndsey thought it would be easier for us to get on the phone and go over instead of a written response. That's why she is the brains of the team. Pete is conducting a funeral currently but he said he would try to coordinate your availability. Please let me know the time you are available. I work until 6 pm but I can stay later to accommodate you both. The phone conference info is below:

Dial: 866-299-3188

Then enter: 702 784 8003

Thanks

Good Afternoon:

I hope all is going well. I wanted to give you all a brief update on the Holy Trinity Cemetery Site.

Data products have been created and reviewed in order to present removal action options. We will be presenting this information to our management within the next few weeks. Once we have the options narrowed down, we will have a meeting with the state and county agencies to discuss the options. Hopefully, that meeting will not add any delays to our proposed plans. After that, I would like to have a meeting with you all to discuss our proposals. I would prefer an in-person meeting. Hopefully, our removal contractor will be selected by then and we can tour the site with them during our visit as well.

To assist us in finalizing the data, please answer the supplemental occupancy questions attached. We are attempting to use the most site specific information as possible. Thanks so much for your assistance.

Please let me know if you have any questions.

Happy New Year to everyone!!!

**Subject:** Holy Trinity Cemetery: 11-12-15 Update  
**Importance:** High

Good Afternoon:

I wanted to give you an update on the HTC removal action. Presently, I have submitted an action memo for the other radiological site in Niagara Falls. I am using that as the template for HTC. Once that action memo is approved, I will be able to submit the document for HTC. Both sites are very similar since the contaminated fill was used by both sites from the same source, Union Carbide. To clarify, an action memo is the decision making document that authorizes the funding for the action. If the other action memo is approved, we may start some work there during the winter months. This is due to the fact that the site has interior contamination to be addressed and this can be addressed during the colder/snowy weather. Also, there is a greater threat to the workers since there is contamination in the interior.

Please let me know if you have any questions.

Thanks

Regards,

Eric

Carmen Coloa

Buffalo Diocese District Director

[ccolao@buffalodiocese.org](mailto:ccolao@buffalodiocese.org)

Good Afternoon Mr. Coloa:

I am the EPA On-Scene Coordinator who recently conducted a radiological survey at the Holy Cemetery Property. As described to Father and Pete, we have collected the data and now I have to create an action memo. Once that action memo is finalized, approved and funded, we will begin removal of the contaminated material. As long as people are not disturbing the material (Mowing, digging, eating), there should be no health effects. The staff is aware of this. I have attached a map which designates the

exterior areas of concern. There are no internal concerns in the office/chapel building based on our surveys and sampling.

Please let me know if you have any questions.

Thanks

Regards,

Eric
